

COGNITIVE ENHANCEMENT PROGRAM: GIVE YOUR BRAIN A BOOST

"The noblest pleasure is the joy of understanding"

-Leonardo da Vinci

We all have weaknesses, but that doesn't mean school and work should be a constant struggle.

If your child...

- takes longer to finish assignments than other students
- does well in class but needs extra help to understand concepts
- studies diligently for tests but the results do not match the effort
- struggles to keep up in group conversations and tends to withdraw or avoid participating
- feels lost and frustrated in class

"Isabella goes to class, listens to her teacher, takes notes, but still struggles to understand the content. I review the material with her and hire tutors, but by the next day, it's as if she forgets everything. Test-taking is horrible as a result."

...Eaton Arrowsmith's after-school Cognitive Enhancement Program can help

IT'S ALL ABOUT CONNECTIONS

So much of school and life involves understanding how one concept connects to another.

Some children need to strengthen the parts of the brain responsible for making these connections before they can really excel.

eatonarrowsmith

FASTER & CONFIDENT UNDERSTANDING

The Cognitive Enhancement Program is designed for children who want to complete tasks faster and with more confidence, as well as individuals with learning difficulties.

HOW THE PROGRAM WORKS

In this part-time program, children use the Symbol Relations or “Clocks” exercise to practice making connections.

It's a well-known exercise that strengthens a person's ability to reason, understand cause and effect and process information quickly.

Help your child reach his or her potential today!

The Cognitive Enhancement Program is available after school from October to May.
